

? WHY PAY RENT ?

Buy a Home of Your Own in the beautiful CAPITOL HILL ADDITION. We have recently purchased the seventy acres of the old Brevard school, and have platted it in acre lots with wide streets and alleys. This property is nicely situated, being within from 8 to 10 blocks of the center of the business portion of Ada. We expect to give you a chance to own a valuable lot in the capital of Pontotoc county by selling these lots on the installment plan.

Ada is now the county seat, and has a great future before it. We have three railroads with a prospect of two more, a cotton compress, a cotton oil mill, a pressed brick plant, and numerous smaller industries. Also have a large cement plant under construction that will employ 250 men, there is under construction a canning factory and the city is spending \$40,000 on additional water works.

WHY SHOULD ADA NOT GROW?

CAPITOL HILL lies northeast of the business portion of the city, and has a fine view of the city. Plenty of good water at from 15 to 20 feet.

If you expect to grow up with the town now is the time to GET IN ON THE GROUND FLOOR. We also do a general Real Estate and Insurance business. See us for any business in our line. Office first door west of the Harris hotel.

CONSTRUCTION ON ADA'S NEW ROAD BEGINS IN 30 DAYS

Muskogee, I. T., Feb. 19.—A contract to build one of the most important lines of railroad in the new state has just been let to the Southwestern Construction company. This is the first section of the Kansas City, Oklahoma and Pacific railroad, which is to be built from Kansas City to the Pacific coast.

The first construction work is to be between Muskogee and Lawton. It is this contract that has been awarded to the Southwestern Construction company. The contract has also been partially awarded for construction to the north.

R. F. King will be in charge of the construction on the line from Muskogee to Lawton and he stated today that work would be begun within 30 days.

The line runs northeast to Joplin and then into Kansas City. To the southwest the line will pass through Muskogee, Weleetka, Ada and Pauls Valley. Bonds to the amount of \$6,500,000 have been sold for the construction work. According to Mr. King it will take two years to complete the line between Muskogee and Lawton. This is the link of a line that contemplates a direct connection between Kansas City and southern California.

There has been considerable talk in connection with this line during the past year, but it was not known that it had been financed to the contracting point until today.

The Wonders of Brist.

Brist is unquestionably the most unique game of the 20th century. It is interesting and entertaining to young and old, satisfying the demand of Nature for outdoor exercise and that very humane desire for something new.

The Brist Boomerang is a very simple looking little instrument, made of two thin pieces of wood crossed and riveted at the center. But the tricks that can be performed with it are all but simple. Just imagine throwing entirely around the house (an illustration of which is shown elsewhere in this paper), in fact with very little practice one can do with it such incredulous things that were you to have appeared among your friends for half hour's entertainment a century ago you would have been duly tried and convicted of witchcraft.

WILL PASS IT AND SUBMIT IT TO THE PRESIDENT

Guthrie, Ok., Feb. 19.—The Jim Crow provision is to be passed and placed in the Constitution practically as reported from committee and then submitted to President. Roosevelt through the legal department of the Nation. This is the result of a conference of delegates and makes more positive the plan heretofore outlined in the Haskell resolution, and which was withdrawn before a vote could be taken.

The present intention, however, goes somewhat farther than that originally proposed. The President is reported through private interview and the press as objecting to the incorporation of certain other ideas, notably that alleged to restrict the right of citizens to protect their property; and, provisions which may be construed in conflict with a republican form of government. The constitution is to be completed to the schedule and sent to Washington in charge of two delegates, who will go over the situation and all provisions in person with the law officer of the Government. Being in a sense subsidiary officials of the Government, the convention feels the advice asked for will not be refused, even in the absence of precedent. When the plan is finally proposed to the convention it will be opposed on the plain ground that it is none of the President's business what goes into the Constitution, so long as it complies with the enabling act.

While there is no direct word from the President, the delegates are generally coming to the belief that the Jim Crow idea is a thorn in his official side and would be accepted as one; if not the reason for refusing a proclamation. Inasmuch as the delegates want statehood above all else, the plan, if successfully carried out, will give an opportunity to remove doubt as far as Washington is concerned.

The convention yesterday practically completed the provision for the organization of a corporation commission and prescribing their duties and authority. Judicial powers are conferred, with appeals direct to the Supreme Court, but hearings before juries are eliminated. In making rates the commission is given plenary power. The anti-pass provision follows the Federal law mainly, with a few additional exceptions, one of which is fire department. The giving of passes or franks by public service corporations, or the acceptance of same by persons in violation of the Constitution is declared to be a crime, the penalty for violation of which is left to the Legislature to prescribe. The corporations affected are: Railroads, street railways, canal, steamboats, freight car companies, car associations, car trust, express companies, pipe lines, sleeping car companies, telegraph and telephone companies, or trustees or lessees operating same.

TEXAS WANTS H. C. PIERCE ON CHARGE OF PERJURY

Austin, Tex., Feb. 19.—Gov. Campbell has issued an application for a requisition on Gov. Folk of Missouri for H. C. Pierce, former president of the Waters-Pierce Oil Company.

Sheriff Matthews and District Attorney Hamilton of this county wired the sheriff and chief of police of St. Louis to arrest Pierce on a fugitive warrant and hold him for requisition.

Pierce was indicted by the grand jury here a few months ago for perjury, but before he could be arrested in Missouri he left that state for New York. He has been out of Missouri ever since, but it is reported that he is

now on his way back to Missouri to meet the subcommittee of the Bailey investigation committee and give testimony in regard to his transactions with Senator Bailey.

Pierce is charged with having made an affidavit to the secretary of state of Texas in 1900 to the effect that the Standard Oil Company had no connection with the Waters-Pierce Oil Company and that the latter concern was an independent concern. Subsequent developments have proved that this affidavit was false, it is claimed.

MINE DISASTER CLAIMS OVER A HUNDRED VICTIMS

Monterey, Mex., Feb. 19.—A dispatch to the News from Las Esperanzas, Coahuila, says that 105 men probably are dead and many injured as a result of an explosion of gas in the coal mine there.

The explosion at Las Esperanzas occurred at 7 p. m. Monday in the Conquista mine No. 3.

Thirty dead bodies have been taken out of the wreck, and it is estimated that 75 more are yet in the mine.

Las Esperanzas is located on the line of the International railway about

75 miles from Eagle Pass, Texas. It is the principal coal center in Mexico and many men, including a large number of Japanese, are employed there.

CICILIANS REGALED AUDIENCE WITH RICHEST MELODIES

No longer are Ada folk mystified at mention of "The Cicilians." Since the superb recital given by the Cicilians last night at the opera house it is known to be an octave of Ada's best feminine voices, as follows:

Misses Galliher and Haynes, 1st soprano. Mesdames McDonald and Brown, 2nd soprano. Mrs. Stone and Miss Hooper, 1st alto. Miss Warren and Mrs. Martin, 2nd alto.

Scarcely could a better selection of pieces be made than that composing last night's concert program, and every one of the numbers was beautifully

rendered. Another praiseworthy feature, there were no awkward pauses nor tedious delays, which so often mar home talent performances. Too much praise can not be given the director, Prof. Stotts, and his Cicilians. The concert revealed both a high order of musical talent and much conscientious work.

The large audience present indicated that Ada fully appreciates its musical talent, and the people will look forward eagerly to another public concert. Interspersed with several encores, the program for the evening was the following:

PART ONE

Piano Duett, "Piff Paff" Englemann
MISS ALMA INGRAM, EULA CLARE SIMS
"Welcome Pretty Primrose" Benbow
CICILIANS
"In the Golden Eventide" Pinsuti
MRS. DUKE STONE

Neglected Colds Threatened Life.

[From the Chicago Tribune.] "Don't trifle with a cold," is good advice for prudent men and women. It may be vital in the case of a child. Proper food, good ventilation, and dry, warm clothing are the proper safeguards against colds. If they are maintained through the changeable weather of autumn, winter and spring, the chances of a surprise from ordinary colds will be slight. But the ordinary light cold will become severe if neglected, and a well established ripe cold is to the germs of diphtheria what honey is to the bee. The greatest menace to child life at this season of the year is the neglected cold. Whether it is a child or adult, the cold slight or severe, the very best treatment that can be adopted is to give Chamberlain's Cough Remedy. It is safe and sure. The great popularity and immense sale of his preparation has been attained by its remarkable cures of this ailment. A cold never results in pneumonia when it is given. For sale by G. M. Ramsey.

CITY COUNCIL SESSION.

No Action Taken to Abate the Dust Nuisance.

For a short time Monday night the city council met in regular session. Little business was transacted beyond approving minutes of several previous meetings and passing upon the usual batch of bills.

An ordinance was passed so amending the occupation ordinance as to make the license on skating rinks \$10 per month instead of \$10 per week, which is deemed prohibitive.

No steps were taken to restore the sprinkling service, though there was some discussion touching the collection of old sprinkling bills from delinquent business houses. The council is discouraged at the indifference shown heretofore by many subscribers to the fund, and is inclined to the opinion that beneficiaries will pay up more promptly if the sprinkling is managed purely as a private enterprise.

City Marshal—Not Constable.

One of those insidious errors again crept into The News columns. Geo. W. Culver's name appeared in the announcement column as if he wanted to be constable. But he doesn't. It's the city marshalship he is after, and his name is now in the right place.

Candidates will have to be indulgent with us. With the passing of the old territorial regime there is such a big lot of offices to fill that it bewilders The News a bit. We are not used to it. But we'll get it all straightened out after we get to vote a time or two.

VAST WEALTH OURS

UNITED STATES RICHEST COUNTRY ON EARTH.

Outstripping Anything That Ever Has Been Known in History Is the Measure of Uncle Sam's Affluence.

The United States is the wealthiest country in the world. In the brief span of its young life this infant nation of ours has broken all records relating to the accumulation of riches, and we are beginning to think of billions instead of millions. Take it any way you like, and the measure of our affluence outstrips anything that has ever been known before, says the New York Sun.

Our country has more actual money, more gold, a larger volume of exports, greater banking facilities, richer farms, more productive mines, more millionaires, more well-to-do tradesmen, more independent farmers, more highly paid laborers and a greater distribution of the luxuries which riches bring than any other nation has ever enjoyed since time began.

One day last October Uncle Sam had gathered into his money storehouse in Washington the greatest amount of gold ever collected at one place in the history of the world—gold representing \$571,893,899. This was indeed a high-water mark. We had there in one little room more gold than was in circulation in Great Britain.

The largest receipt ever given, the greatest money trust ever undertaken in history, was when the present treasurer of the United States, Charles H. Treat, went into office. He received from Ellis H. Roberts, the retiring treasurer, for all the money and securities in the vaults of the treasury, a total of \$1,259,598,278.55. It required from July 1 to September 5 to count the money, and at the completion of the task the accounts balanced to a fraction.

The costliest governmental establishment in the world is the British navy, upon which a billion and a half has been expended within the last ten years. Yet three individual Americans—Rockefeller, Carnegie and Clark—could have paid the whole bill and still have some pocket money left. The United States is now spending about a hundred millions a year on its navy, and we are new at this kind of expenditure. That we are not investing more than we can afford is shown by the fact that our display-loving women spent \$100,000,000 for diamonds purchased in foreign lands during the last two years. In fact, we are so rich that the sales of produce and manufactured articles that we are sending abroad each year is equal to a sum sufficient to support all the navies in the world.

When it comes in individual wealth we have a dozen citizens who are worth more than all the kings and rulers of the world, taken collectively or severally. The czar of Russia is reputed to have a greater income than any other living man, but his private fortune is so mixed up with the governmental revenues that it is impossible to separate them. If a distinction could be made John D. Rockefeller could undoubtedly make a comparison with the weak-spined Nicholas, and show the biggest pile. The Russian monarch's wealth is the accumulation of an empire, centuries old in the making, while the Ohio oil magnate can remember when he had nothing.

To say that the total valuation of the wealth of the United States is \$107,000,000,000 is not understandable. A hundred billion dollars is such a pile of money that the simple mind cannot grasp its meaning on the instant. It is more than twice the total amount of the wealth of the United Kingdom, of France, or of Germany; and over three times that of Russia or of Austria-Hungary. Probably the best way of illustrating the actual extent of Uncle Sam's riches is to state that if he could convert all his assets into money he would have nearly four times as much as would be required to pay off the entire national debt of all the governments in the world, including his own.

Cost \$1,400 to Collect \$1.

The most expensive member of Uncle Sam's custom service is the collector of the port of the Little Egg harbor (Pa.) district. It's not his fault, however. He's just as vigilant as the hawk of the great port of New York, where it costs about three or four cents to collect one dollar of customs. Dutiable goods seldom come into Tuckerton, and when 40 cents was returned to Secretary Shaw as the total customs receipts for this district, Collector Frank William Leach didn't send with it a letter of apology. He just knew that he couldn't help it if it had cost Uncle Sam at the rate of about \$1,400 a year to collect a dollar.

Mr. Leach was formerly secretary to Senator Quay. His appointment to the collectorship two years ago at a salary of about \$550 annually was a surprise, for it was not known that he was a candidate. He's willing to keep the place, however, and even made a fight to save his district from being abolished, as it is likely to be along with a number of others were the cost of collection is enormously out of proportion to the receipts.

Retort Courteous.

He (mickly)—Mm men like the soft pillow of a woman's mind. She (cuttingly)—Yes, because they feel they need somebody else's opinion to bolster them up.

INSISTED ON BEING HANGED.

Murderers Who Have Pleaded for Execution of Sentence.

The case of the condemned murderer, who the other day practically sentenced himself by refusing to sign a petition for a reprieve, is not so rare as many people imagine.

One famous parallel instance was that of Rev. Mr. Hackman, who shot an actress, Miss Reay, as she was leaving the stage door of Convent Garden theater, and who, although actually offered a commutation, preferred to die upon the gallows in the expiation of his crime.

Only a few weeks back, again, the *Ferdin* papers chronicled the case of a wealthy land owner, who, having shot a servant in a fit of passion, tried him, with himself as judge, and sentenced himself to ten years' solitary confinement in one of his own private dungeons in his own medieval castle in the heart of the Black Forest.

Nine years and some odd months of this punishment he actually endured, his house steward doling him out daily a meager ration of coarse prison fare. Unluckily for him, however, the authorities got to hear of the affair and he was hailed before the ordinary tribunal to await his trial in due course.

Another extraordinary case also, curiously enough, of German origin, was that of a sergeant major of an infantry regiment stationed in Bremen, who a few weeks back sentenced himself to be shot by a squad of his own men. The soldiers thought they were firing blank, but the self-condemned man had surreptitiously removed the harmless cartridges and substituted ball ammunition, so that at the word of command, "Fire," he fell dead.

Finally, it may be mentioned that John Lee, the Habbakukite who survived three separate attempts to hang him, was sentenced to the gallows by the machinery of the law, insisted vehemently that his sentence must be carried out "according to law."

This is, of course, quite contrary to the generally received opinion regarding the case. But the writer was recently assured of its correctness by the convict's own mother, and her assurance is borne out by Rev. John Pitkin, who was chaplain of Exeter gaol at the time.

"Said this gentleman the other day: 'When the attempt to execute him (Lee) failed, he called out again and again, "I will be executed." And when I suggested after the third attempt to take his life that the execution should be postponed, Lee exclaimed, "Aren't they going to execute me? I will be executed!"'—Pearson's Weekly.

Intelligent Pharmacy.

One of the wisest physicians in New York was in financial straits in his young days, and looked long and hard for a job. Finally he was engaged in a small shop in Cherry street, in the midst of sailors' boarding houses "and such." One night a woman asked for an ounce of some deadly poison. "What are you going to do with it?" said the young pharmacist. She replied quickly: "I am going to drink it; I am weary of living; I shall commit suicide." "In that case," she he, "I won't sell it to you; you will have to obtain it elsewhere." She laughed. "Oh, do you take me for a fool? If I wanted to kill myself do you suppose I'd tell you? Honestly, I want the medicine for my husband, a longshoreman, who is in great distress." "That's different," said our young friend, who thereupon sold the poison and made her sign for it. As she passed out of the door she yelled in maniac tones: "Ya, ya! I got you that time! I'll be in hell in seven minutes!"

Colors to the Blind.

"Have you any conception of color?" a friend asked a blind man. "What idea have you when you hear colors mentioned?"

"A person blind from birth as I have been can have no possible proper conception of color," was the reply. "To me color is sound, or rather, music. When I hear the word red, for example, I instantly think of a high piercing note of music; blue is to me a delicately sounded note fairly high and pleasing in tone; green is a soft tone and rather low, quiet and restful; while yellow is lively, quick little notes rapidly sounding and causing pleasure, almost to laughter. Black, alas! is the only color we can realize, for we are told that that is the absence of all light, and we know only too well what that means."

Garbed Like Player Queen.

As she came into the corridor of the opera house every woman's eye turned in her direction, attracted by the curious head covering she wore. It looked like one of the crowns a player wears in a Shakespearean play, since it consisted of nothing but a band of heavy gold braid, of the kind known technically as "galoon," with a circular top to it, fashioned of purple velvet. Around her neck she wore a thin scarf of a shade that toned in with the color of the velvet and the final touch of Shakespearean suggestion was added when she lifted up her skirts, disclosing her ankles clad in mauve silk stockings and her feet covered with a pair of sandals in native-colored kid through the openings in which the stockings could be plainly seen.

Trying to Avoid Exposure.

"Hicks—I carried my wife's umbrella with me yesterday and lost it somewhere. Now she wants to advertise it. Wicks—That's a good idea. It may be returned to her."

"Hicks—That's just the trouble. I'm almost certain I left it in some saloon."

ABSORB THE POISON

PHYSICIAN TELLS OF QUALITIES OF "MADSTONES."

New Clay Pipe, Easily Procurable, as Good as Any—All Worthless When Venom Has Entered the Circulation.

Physicians are often asked whether there really is any virtue in what are called madstones. One of them, writing in the Medical Brief, declares that these stones are of value, but they would be of more value if their limitations were understood.

"There is no particular variety of stone or substance which may be designated exclusively as the madstone," he says. "I have seen many of them, so-called, and no two were of exactly the same composition, geologically considered."

"Madstones act on the same principle that a blotting paper does, when absorbing ink, and there is nothing that makes a better one than baked pipe clay. A new clay pipe, procurable for one cent at nearly any store where tobacco is sold, can not be excelled by any madstone, no matter how great its reputation."

"The action can be clearly demonstrated by placing a common dry red brick in contact with the margin of a puddle of water and noticing what capillary attraction will accomplish. Therefore, to be efficient, the only necessity is for the stone to be porous and have strong adhesive and absorbent qualities. Nothing mysterious about it."

"I have seen several that appear to be clay pipes, and have used them, and were successful in curing the poison."

"When a patient is bitten by a snake, the first thing to do is to cut the wound with a sharp knife, and then to apply the madstone to the wound. The madstone will absorb the poison, and the patient will be cured. The madstone is a very valuable thing, and should be kept in every household."

"For instance, a new red brick will absorb one pint of water. After the venom has been taken into the circulation the madstone is worthless, but as the victim it usually filled with whisky or alcohol at the same time the stone is being used the spirits may counteract the effect of the poison."

"I know of a stone which has a wide reputation, and makes a good living for the family owning it. They never let it go out of their sight, and when the victim can not be taken to the stone one member of the family can be hired to take the stone to the victim. In addition to traveling expenses they charge \$5 for the application and \$2 extra for each hour that the stone sticks."

"This stone is busy a large part of the time. Not long since the stone held to a man's leg for over one hundred hours, yet the man died. His life could have been saved if dependence had not been placed entirely in the stone."

Russia's Royalties.

During the hottest months of summer the Russian imperial family remove to the Cottage, a seaside palace, in the Alexander Park, at Peterhoff, on the Gulf of Finland.

The Alexander palace is a long, low, white building in the midst of a lovely park. Its beautiful private gardens are ablaze with flowers, and there are all sorts of surprises for the favored visitor. Here is a miniature fort, there different athletic apparatus, and a little cottage, with a stable and dear little garden round it, where the small grand duchesses experiment in house-keeping and gardening. When they are tired of that sort of amusement they can enjoy motoring, riding or driving in the long wooded avenue which surround the palace, says Home Notes.

Inside the great hall at Peterhoff there are fitted toboggan slides for bad weather; the palace is, indeed, holiday house, and whatever cares the five children may have in the future, owing to their exalted position, their childhood is at any rate as happy and unspoiled as was that of their mother—little Princess "Sunny," as she used to be called.

Had a Feeling of Curiosity.

"I was asked to find out when you would pay this little account," said the collector, pleasantly. "Really," answered the debtor, "I am unable to do so. I have no money to waste," growled the collector.

"Just add the 50 cents to my account," continued the other, "for I have a curiosity on the point myself."

Same Here.

Bacon—I see the married man in Corea follows a strange custom. If he should meet his wife in the street he does not recognize her, but passes as if she were a stranger."

Egbert—Well, that is the custom in this country too, when the married man happens to be in the company of another woman.—Yonkers Statesman.

TALE OF FELINE SAGACITY.

Wondrous Story Told on Circle of Unbelievers.

"I've got an old tom cat at my house that once saved nine lives."

"That's easy," butted in the man who had his feet on the table. "He dodged the flatiron that you threw at him."

"Perhaps he got tired of being starved at your house and crawled away to some neighbor's," suggested the man with the baggy-kneed trousers.

"Your shrewdness does you infinite credit, gentlemen," said the first speaker, handing each of them a cheap cigar. "Permit me to reward you. But you don't quite guess it. This cat, in nosing around the premises, found a pitcher of cream. He stuck his head down into it. It was a tight fit, but he managed to get his head inside. Then he was in a fix. His nose was in the cream, and he couldn't get his head back through the opening. Any other cat would have suffocated to death inside of—"

"Why," interrupted the man with the green goggles, "didn't he—"

"Jam the pitcher against the floor and break it?—I knew you would ask that question. He couldn't. It was made of pewter. I am telling this story, please remember, and don't cut in again. This cat was confused for a moment, of course. Any cat would have been. He clawed around a little, and stuck his tail up in the air, but he didn't make any sound. He had sense enough to know that he couldn't carry on a conversation with the outside world while his nose and mouth were buried in the cream. He spat out—"

"I have seen several that appear to be clay pipes, and have used them, and were successful in curing the poison."

Natives Can't Swim.

A Washington man tells of a recent visit to a benighted section of a southwestern state—a region so uninviting and unpromising that even the residents thereof evince for it the greatest disgust. Many would leave if they could, but, as they themselves say: "There ain't nothin' to do but stay an' have the chills and fever."

The Washington man was riding along the banks of the river that waters this section, and although he had gone some 20 miles or so he had not in all that distance noticed a single fisherman. Meeting a man lounging near the stream, he asked: "Why doesn't someone fish in this river?"

"Ain't no fish," was the laconic response of the native.

"No fish in such a beautiful river as this?" exclaimed the astonished Washingtonian. "Why not?"

The native lazily shifted his position and answered:

"Stranger, if you could git outter this country as easy as a fish can, do you reckon you'd be here?"—Harper's Weekly.

Always at Hand.

Not a great many years ago a number of families in Charlestown, Mass., kept hens, and it was a common sight to see them foraging about on any street in the residential section.

One afternoon a group of small boys were playing "Grand Army" on Bunker Hill street. One boy was the commander, another the adjutant, and the other boy the comrades. As the lads moved up and down the street, the hens followed along, pecking away, a safe distance from the rear.

Suddenly one of the "comrades" commenced to cry. The game stopped and the commander asked: "What's the matter, Johnny?"

"I ain't going to play if those old hens keep tagging on behind us," sobbed Johnny.

"Never mind," said the commander. "We'll play the hens are the Woman's Relief Corps, see!"

Mining in the Deep Blue Sea.

The search for the treasure of the Spanish Armada galloon *Florencia* is being proceeded with vigorously in Tobermory bay, Scotland, and the salvors have been encouraged by their finds. Part of the rigging of the sunken ship has already been found. Among other interesting relics brought up were two stone cannon balls, six and a half inches in diameter, one iron shot of about two inches in diameter and a blunderbuss with an inch bore. The divers have come across large quantities of wood in all directions and other unmistakable signs that they are close to the hull of the *Florencia*.

Brainy.

"Awfully bulging forehead, hasn't he. Must be very brainy."

"Brainy! Why, that man can take up a problem in bridge and analyze it and give you his deductions, and then show you just how the cards should fall for six deals ahead. He's brainy, all right."

SURVIVAL OF OLD BELIEFS.

Horses Ridden by Spirits—Winds That Waft Thanks of the Dead.

It was formerly almost universally believed that on All Saints' day the dead were permitted to leave their tombs and to roam abroad. In some parts of Brittany, and in other places, the peasants even now are careful to lock up their horses in the stables lest the dead, rising from their graves in the early morning, should seize them and ride furiously to some distant spot they may have frequented in life.

In the northern departments people refrain from slamming doors sharply on this day lest they should hurt an invisible spirit entering, and the children are forbidden to throw stones into the hedges or trees for fear that the missiles should wound the soul of some departed relation or friend hovering about them.

In Alsace little lamps, lanterns and glimmering tapers arranged in the form of a cross are seen burning all night long close to the ground in many a cemetery. They are destined to rejoice the souls as they rise from their graves.

Perhaps the most common of all superstitions concerning the dead is that about noon on All Saints' day there comes a gentle gust of wind. The peasants in the fields raise their heads in the hope and expectation of feeling it, for it is the dead wafting their thanks to the living for their prayers and remembrance of them.

THE CAUSE OF KLEPTOMANIA

It Is Said to Result Sometimes from Close Study.

Kleptomania is occasionally induced by continued and close application to the study of a particular subject. A singular case was recently reported from Germany.

A well-known professor was found to have transferred to his own private collection many of the valuable butterflies of which he had charge in his official capacity.

The existence of mental derangement was clear from the facts that came out in the course of the investigation afterward made by the museum authorities.

It was found that the professor often sent his wife out all day to catch butterflies, and that he was his usual profession while hunting a butterfly was nearly run over by an express train at another time he fell into a river, and once both he and his wife fell into a pond.

Roller Skating and Coughs.

A peculiar hacking, dry cough is now epidemic among the young people. Doctors have puzzled over the singular prevalence of this malady and wondered what caused it. It seemed to be the result of impure or dust laden air. All those afflicted, however, state that they are outdoor people and athletic in their tastes. It suddenly occurred to a young physician the other night that the cough is the result of roller skating, the ruck the great deal of dust gathers, and as the skaters roll around it arises, fills the atmosphere and is inhaled by the skaters. Roller skating is a fine sport, but it is far healthier to do it on the asphalt, as the children do, than in the crowded, dusty rinks. This is one of the reasons why indoor roller skating is a sport that rises and falls, and lasts only a year or so at a time.—Philadelphia Record.

He Liked the Exercise.

Over 50 years ago there lived on a farm in the Pawtuxet valley a man by the name of Stephen Colvin, or "Uncle Stephen," as he was usually called. He was noted for his great strength and power of endurance and also for his eccentricities.

One day a friend met him on the street in Providence and knowing it was Uncle Stephen's custom to walk to the city, thought it would be an excellent opportunity to send a horse and chase out home by him. He therefore asked Uncle Stephen if he would drive the horse home for him.

"No, I won't drive the horse home, but I will lead him home for you," said Uncle Stephen, and he did, and carried a bushel of meal on his shoulder a distance of 12 miles.

Malaria in Greece.

The excessive prevalence of malaria is declared to be checking the development of rural life in Greece, and seriously endangering the prosperity of the whole nation. Statistics show that out of a population of about 2,500,000 there have been an average of some 250,000 cases and 1,760 deaths per annum, while in 1905 the number of cases increased to 900,000, with 5,916 deaths. The conditions have become so grave that Professor Savas, of the university of Athens, and physician to King George, has been called upon to initiate measures to deal with the plague.

Seeking Things Profane.

The Rev. R. E. Hale is fond of gardening, and on one occasion several years ago was trailing a creeping ivy vine to a piece of trellis near his gate when he noticed that a small boy was standing near watching him very attentively.

"Well, my young friend," he said, "you seem to be quite interested in what I am doing; are you looking for a hint or two in gardening?"

"No," said the boy, "I'm waiting to hear what a parson says when he hammers his thumb."—Boston Herald.

SWALLOW'S FLIGHT IS RAPID.

Speed of 128 Miles An Hour Determined in an Experiment.

The French scientific weekly, *Ciel et Terre*, prints an interesting article about the speed of several birds, as observed by August Versheurin of Antwerp. The rapidity of flight credited to the swallow (290 feet a second) seemed exaggerated to him and he undertook some experiments on his own hook.

He sent several baskets of pigeons to Compeigne, France, and in a separate cage a swallow which had its nest under the gable roof of the railroad station at Antwerp. On November 7, at 7:30 in the morning, all the birds were liberated at Compeigne; the swallow took a northern direction as quick as lightning, while the pigeons made several spirals in the air before they started in the same direction. The swallow arrived at its nest in Antwerp at 8:23, a number of witnesses being present at its arrival.

The first pigeons only arrived at their destination at 11:30 of the same morning. The swallow had, therefore, covered the entire distance of 146½ miles in one hour and 18 minutes, which is equal to a speed of 123½ miles an hour, or about 159 feet a second, which is about double the speed of an express train.

The pigeons only reached a speed of 35 miles an hour, or 48 feet a second. It may be gathered from these figures how rapidly the migrations of the swallows take place, as with the speed given above it would require only half a day to fly from Belgium or Central Germany to northern Africa.

TRICKS OF PARIS BEGGARS.

All Stock Tales of the Trade Well Known to Fraternity.

This city is the happy hunting ground of the beggar, and especially at the New Year. He stops you at every corner of the street; he tries to hand you out of your carriage the moment you stop before shop or restaurant. It is partly the influence of the season, but it is an evil that is always with us more or less. Some have quite ingenious tricks to tempt the pity of the passerby.

One lady, who is well known to the beggars, every evening, at the Gare St. Lazare, is very sympathetic. In a long stranger coat, she is a beggar, and a beggar's story is told her. She is a beggar, and a beggar's story is told her. She is a beggar, and a beggar's story is told her.

At the New Year the usual crop of beggars is so immensely increased that one supposes that the comparatively well off must descend into the street to try their luck. No doubt it is a "melter" that has its fascinations, especially if it be but temporary.—Paris Correspondence Pall Mall Gazette.

Literary Fame.

"Zangwill," said a magazine editor, "entered literature by the back stairs. Instead of submitting his first story to the magazine he had it printed in pamphlet form, and sold it on the news stands at a cent a copy. He made out of it \$150. Now had this story been submitted to me I should undoubtedly have rejected it."

"Zangwill has turned to plays because he doesn't think there is much in books. Once I heard him say bitterly: 'If you are blessed with talent, great industry and conceit it is possible, by dint of slaving day and night, for years, during the flower of your youth, to attain to fame infinitely less widespread than a prize fighter's.'"

With a Real Octopus.

Here is an octopus adventure. The crew of the *Perle*, a fishing boat hailing from Cancale, France, between St. Malo and Mont St. Michael, were about to pull in a big net, when they encountered a sudden resistance. The net was simply crammed, not, however, with good mackerel, but with vast number of octopi, each provided with tentacles more than six feet in length. The slimy wretches swarmed up one side of the craft, giving the fishers a frightful experience. The men had at last to cut the rope of the net, sacrificing it altogether, and then to free the side of the boat from the octopi which stuck to it.

Tobacco and Bad Tempers.

"Bad weather and bad tempers do our business good," said a tobaccoist. "What other business can you say that?"

"You see, the more dismal the weather is, the more men seek the solace of tobacco. By consequence, the more money falls into the tobaccoist's till."

"Bad-tempered men are always the cigar dealer's best customers. The infuriated man not only flies to his pipe or weed often than others, but he smokes twice as rapidly as his placid mild-tempered brother."

OVERDRAFTS

It is becoming well known by business men that overdrafts, whether large or small, are not approved by the controller of the currency. The large central banks allow overdrafts only in a very small way, and this, it matters not how small, is not approved by the powers that be. This unbusinesslike habit of overdrafts grew out of advancing on moving products, such as cotton, grain and fat stock on the move. The overdraft system is wrong and the man whose account is always overdrawn is the man who spends more money than he makes and will finally have no bank account.

MAKES BEST REMEDY.

Especially Valued by Elderly People Who Suffer.

A large Eastern publication tells its readers of a number of simple and safe prescriptions that can be made at home. The following, however, for the cure of rheumatism and kidney and bladder troubles receives the greatest praise, viz., Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. These simple vegetable ingredients can be obtained at any good prescription pharmacy at little cost and are mixed by shaking well in a bottle.

The dose for adults is a teaspoonful after each meal and at bed time, drinking a full tumblerful of water after each dose. It is further stated that this prescription is a positive remedy for kidney trouble and lame back, weak bladder and urinary difficulties, especially of the elderly people, and one of the best things to be used in rheumatic affections relieving the aches and pains and reducing swellings in just a short while.

A well-known local druggist states that the Compound Kargon in it does the work. It is the drug which acts directly upon the eliminative tissues of the kidneys; cleanses the spongelike organs and gives them power to sift and strain the poisonous waste matter and uric acid from the blood which is the cause of rheumatism.

Cut this out and hand to some sufferer which would certainly be an act of humanity.

Progress of the Cannery

Both buildings of the canning factory are now practically complete—the machinery house and the office and labelling building. The latter was under construction before it was known the lot for the other one could be acquired. It is thought the machinery building by a little addition can be made to accommodate the entire business, so the other building may be sold, inasmuch as a good purchaser is ready to take it for a boarding house.

GAVE HIM COVETED PLACE.

John Thrasher's Vision of Down Below Told to Good effect.

John Thrasher, an old timer who lived in Cornish, N. H., came into the hotel office one bitter cold January night only to see a large number of citizens about the comforting fire and all the chairs occupied by a number of lawyers. After the usual salutations Mr. Thrasher said: "I had a very strange dream last night. I dreamed that I was taken sick and died and went to the bad place."

A chorus of laughter greeted this part of the recital.

"And," continued he, "I was met by his satanic majesty and was shown the conveniences of the place. At last our journey took us into a large room where a furious fire burned, and, strange as it may seem, all the lawyers were hugging the fire there, too."

Instantly the parties about the stove drew back and Mr. Thrasher moved through the assemblage, sat down, tilted his chair back and sat in blissful content.

CHICKASAW COMMISSION.

Appointed by Governor to Work at Washington for Nation.

Colbert, I. T., 19 Feb.—Gov. D. H. Johnston of the Chickasaw Nation has appointed the following commission to go to Washington and look after legislation affecting the interests of the Indians before the present session of Congress: T. H. Howell of Davis, Ed B. Johnson of Chickasha and A. N. Leecraft of Colbert. The resolution creating this commission has been approved by the President and the members appointed are now on their way to the capital.

Every state but one has its building erected. He was ashamed to observe that Oklahoma and Texas are two of those indifferent four. Mr. Brents thinks no one can afford to miss taking in the sights of Jamestown, of Washington, and others along the Potomac, and the Chesapeake which the trip will offer.

On his trip he was accompanied by Guy Sackett, U. S. court stenographer.

Badger Fight Tonight.

Local sports have arranged to pull off a big badger fight at the stone river barn tonight at 7:30 o'clock. A famous bull dog has been imported from Lehigh to fight the still more famous badger from Roff. Much excitement prevails among sporting circles and it is said considerable money has already been wagered by respective admirers of the two old combatants.

Neglected Colds Threatened Life.

[From the Chicago Tribune.]

"Don't trifle with a cold," is good advice for prudent men and women. It may be vital in the case of a child. Proper food, good ventilation, and dry, warm clothing are the proper safeguards against colds. If they are maintained through the changeable weather of autumn, winter and spring, the chances of a surprise from ordinary colds will be slight. But the ordinary cold will become severe if neglected, and a well established ripe cold is to the germs of diphtheria what honey is to the bee. The greatest menace to child life at this season of the year is, he neglected cold. Whether it is a child or adult, the cold slight or severe, the very best treatment that can be adopted is to give Chamberlain's Cough Remedy. It is safe and sure. The great popularity and immense sale of his preparation has been attained by its remarkable cures of this ailment. A cold never results in pneumonia when it is given. For sale by G. M. Ramsey.

CITY COUNCIL SESSION.

No Action Taken to Abate the Dust Nuisance.

For a short time Monday night the city council met in regular session. Little business was transacted beyond approving minutes of several previous meetings and passing upon the usual batch of bills.

An ordinance was passed so amending the ordinance as to make the license on skating rinks \$10 per month instead of \$10 per week, which is deemed prohibitive.

No steps were taken to restore the sprinkling service, though there was some discussion touching the collection of old sprinkling bills from delinquent business houses. The council is discouraged at the indifference shown heretofore by many subscribers to the fund, and is inclined to the opinion that beneficiaries will pay up more promptly if the sprinkling is managed purely as a private enterprise.

City Marshal—Not Constable.

One of those insidious errors again crept into The News columns. Geo. W. Cuiver's name appeared in the announcement column as if he wanted to be constable. But he doesn't. It's the city marshalship he is after, and his name is now in the right place.

Candidates will have to be indulgent with us. With the passing of the old territorial regime there is such a big lot of offices to fill that it bewilders The News a bit. We are not used to it. But we'll get it all straightened out after we get to vote a time or two.

? WHY PAY RENT ?

Buy a Home of Your Own in the beautiful CAPITOL HILL ADDITION. We have recently purchased the seventy acres of the old Brevard school, and have platted it in acre lots with wide streets and alleys. This property is nicely situated, being within from 2 to 10 blocks of the center of the business portion of Ada. We expect to give you a chance to own a valuable lot in the capital of Pontotoc county by selling these lots on the installment plan.

Ada is now the county seat, and has a great future before it. We have three railroads with a prospect of two more, a cotton compress, a cotton oil mill, a pressed brick plant, and numerous smaller industries. Also have a large cement plant under construction that will employ 250 men, there is under construction a canning factory and the city is spending \$40,000 on additional water works.

WHY SHOULD ADA NOT GROW?

CAPITOL HILL lies northeast of the business portion of the city, and has a fine view of the city. Plenty of good water at from 15 to 20 feet.

If you expect to grow up with the town now is the time to GET IN ON THE GROUND FLOOR.

We also do a General Real Estate and Insurance business. See us for any business in our line. Office first door west of the Harris hotel.

CONSTRUCTION ON ADA'S NEW ROAD BEGINS IN 30 DAYS

Muskogee, I. T., Feb. 19.—A contract to build one of the most important lines of railroad in the new state has just been let to the Southwestern Construction company. This is the first section of the Kansas City, Oklahoma and Pacific railroad, which is to be built from Kansas City to the Pacific coast.

The first construction work is to be between Muskogee and Lawton. It is this contract that has been awarded to the Southwestern Construction company. The contract has also been partially awarded for construction to the north.

R. F. King will be in charge of the construction on the line from Muskogee to Lawton and he stated today that work would be begun within 30 days.

The line runs northeast to Joplin and then into Kansas City. To the southwest the line will pass through Muskogee, Weleetka, Ada and Pauls Valley. Bonds to the amount of \$6,500,000 have been sold for the construction work. According to Mr. King it will take two years to complete the line between Muskogee and Lawton. This is the link of a line that contemplates a direct connection between Kansas City and southern California.

There has been considerable talk in connection with this line during the past year, but it was not known that it had been financed to the contracting point until today.

Good farm to rent and good team to sell on time. U. G. Winn. 279-11

The Wonders of Brist.

Brist is unquestionably the most unique game of the 20th century. It is interesting and entertaining to young and old, satisfying the demand of Nature for outdoor exercise and that very humane desire for something new.

The Brist Boomerang is a very simple looking little instrument, made of two thin pieces of wood crossed and riveted at the center. But the tricks that can be performed with it are all but simple. Just imagine throwing entirely around the house (an illustration of which is shown elsewhere in this paper), in fact with very little practice one can do with it such incredulous things that were you to have appeared among your friends for half hour's entertainment a century ago you would have been duly tried and convicted of witchcraft.

WILL PASS IT AND SUBMIT IT TO THE PRESIDENT

Guthrie, Ok., Feb. 19.—The Jim Crow provision is to be passed and placed in the Constitution practically as reported from committee and then submitted to President Roosevelt through the legal department of the Nation. This is the result of a conference of delegates and makes more positive the plan heretofore outlined in the Haskell resolution, and which was withdrawn before a vote could be taken.

The present intention, however, goes somewhat farther than that originally proposed. The President is reported through private interview and the press as objecting to the incorporation of certain other ideas, notably that alleged to restrict the right of citizens to protect their property; and provisions which may be construed in conflict with a republican form of government. The constitution is to be completed to the schedule and sent to Washington in charge of two delegates, who will go over the situation and all provisions in person with the law officer of the government. Being in a sense subsidiary officials of the government, the convention feels the advice asked for will not be refused, even in the absence of precedent. When the plan is finally proposed to the convention it will be opposed on the plain ground that it is none of the President's business what goes into the Constitution so long as it complies with the enabling act.

While there is no direct word from the President, the delegates are generally coming to the belief that the Jim Crow idea is a thorn in his official side and would be accepted as such; if not the reason for refusing a proclamation, inasmuch as the delegates want statehood above all else; the plan, if successfully carried out, will give an opportunity to remove doubt as far as Washington is concerned.

The convention yesterday practically completed the provision for the organization of a corporation commission and prescribing their duties and authority. Judicial powers are conferred, with appeals direct to the Supreme Court, but hearings before juries are eliminated. In making rates the commission is given plenary power. The anti-pass provision follows the Federal law mainly, with a few additional exceptions, one of which is fire department. The giving of passes or franks by public service corporations, or the acceptance of same by persons in violation of the Constitution is declared to be a crime, the penalty for violation of which is left to the Legislature to prescribe. The corporations affected are: Railroads, street railways, canal, steamboats, freight car companies, car associations, car trust, express companies, pipe lines, sleeping car companies, telegraph and telephone companies, or trustees or lessees operating same.

TEXAS WANTS H. C. PIERCE ON CHARGE OF PERJURY

Austin, Tex., Feb. 19.—Gov. Campbell has issued an application for a requisition on Gov. Folk of Missouri for H. C. Pierce, former president of the Waters-Pierce Oil Company.

Sheriff Matthews and District Attorney Hamilton of this county wired the sheriff and chief of police of St. Louis to arrest Pierce on a fugitive warrant and hold him for requisition.

Pierce was indicted by the grand jury here a few months ago for perjury, but before he could be arrested in Missouri he left that state for New York. He has been out of Missouri ever since, but it is reported that he is now on his way back to Missouri to meet the subcommittee of the Bailey investigation committee and give testimony in regard to his transactions with Senator Bailey.

Pierce is charged with having made an affidavit to the secretary of state of Texas in 1900 to the effect that the Standard Oil Company had no connection with the Waters-Pierce Oil Company and that the latter concern was an independent concern. Subsequent developments have proved that this affidavit was false, it is claimed.

MINE DISASTER CLAIMS OVER A HUNDRED VICTIMS

Monterey, Mex., Feb. 19.—A dispatch to the News from Las Esperanzas, Coahuila, says that 105 men probably are dead and many injured as a result of an explosion of gas in the coal mine there.

The explosion at Las Esperanzas occurred at 7 p. m. Monday in the Conquista mine No. 3.

Thirty dead bodies have been taken out of the wreck, and it is estimated that 75 more are yet in the mine.

Las Esperanzas is located on the line of the International railway about 75 miles from Eagle Pass, Texas. It is the principal coal center in Mexico and many men, including a large number of Japanese, are employed there.

CICILIANS REGALED AUDIENCE WITH RICHEST MELODIES

No longer are Ada folk mystified at the reception of "The Cicilians." Since the superb recital given by the Cicilians last night at the opera house it is known to be an octette of Ada's best feminine voices, as follows:

Misses Galliher and Haynes, 1st soprano. Mesdames McDonald and Brown, 2nd soprano. Mrs. Stone and Miss Hooper, 1st alto. Miss Warren and Mrs. Martin, 2nd alto.

Scarcely could a better selection of pieces be made than that composing last night's concert program, and every note of the numbers was beautifully rendered.

Another praiseworthy feature, there were no awkward pauses nor tedious delays, which so often mar home talent performances. Too much praise can not be given the director, Prof. Stotta, and his Cicilians. The concert revealed both a high order of musical talent and much conscientious work.

The large audience present indicated that Ada fully appreciates its musical talent, and the people will look forward eagerly to another public concert. Interspersed with several encores, the program for the evening was the following:

PART ONE

Piano Duett, "Pill Puff".....Englemann
MISSES ALMA INGRAM, EULA CLARK STAS
"Welcome Pretty Primrose".....Bendish

Notice of the First Meeting of Creditors.

In the United States Court for the Southern District of the Indian Territory at Ada.

In the matter of Frisco Mercantile Co. Bankrupt.

To the creditors of Frisco Mercantile Company, of Francis, I. T., in said district, a bankrupt.

Notice is hereby given that, on the 1st day of February, 1907 the said Frisco Mercantile Co. was duly adjudged bankrupt, and that the first meeting of the creditors will be held at my office at Ada at 10 o'clock in the forenoon on the 27th day of February A. D. 1907, at which time the creditors may attend, prove their claims, appoint a trustee, examine the bankrupt, and transact such other business as may properly come before the said meeting.

This 18th day of February, 1907

OVERDRAFTS

It is becoming well known by business men that overdrafts, whether large or small, are not approved by the comptroller of the currency. The large central banks allow overdrafts only in a very small way, and this, it matters not how small, is not approved by the powers that be. This unbusinesslike habit of overdrafts grow out of advancing on moving products, such as cotton, grain and fat stock on the move. The overdraft system is wrong and the man whose account is always overdrawn is the man who spends more money than he makes and will finally have no bank account.

MAKES BESTED REMEDY

Especially Valued by Elderly People Who Suffer.

A large Eastern publication tells its readers of a number of simple and safe prescriptions that can be made at home. The following, however, for the cure of rheumatism and kidney and bladder troubles receives the greatest praise, viz., Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. These simple vegetable ingredients can be obtained at any good prescription pharmacy at little cost and are mixed by shaking well in a bottle.

The dose for adults is a teaspoonful after each meal and at bed time, drinking a full tumblerful of water after each dose. It is further stated that this prescription is a positive remedy for kidney trouble and lame back, weak bladder and urinary difficulties, especially of the elderly people, and one of the best things to be used in rheumatic affections relieving the aches and pains and reducing swellings in just a short while.

A well-known local druggist states that the Compound Kargon in it does the work. It is the drug which acts directly upon the eliminative tissues of the kidneys; cleanses the spongelike organs and gives them power to sift and strain the poisonous waste matter and uric acid from the blood which is the cause of rheumatism.

Cut this out and hand to some sufferer which would certainly be an act of humanity.

Progress of the Cannery

Both buildings of the canning factory are now practically complete—the machinery house and the office and labelling building. The latter was under construction before it was known the lot for the other one could be acquired. It is thought the machinery building by a little addition can be made to accommodate the entire business, so the other building may be sold, inasmuch as a good purchaser is ready to take it for a boarding house.

SAVED HIM COVETED PLACE

John Thrasher's Vision of Down Below Told to Good Effect.

John Thrasher, an old timer who lived in Cornish, N. H., came into the hotel office one bitter cold January night only to see a large number of citizens about the comforting fire and all the chairs occupied by a number of lawyers. After the usual salutations Mr. Thrasher said: "I had a very strange dream last night. I dreamed that I was taken sick and died and went to the bad place."

A chorus of laughter greeted this part of the recital.

"And," continued he, "I was met by his satanic majesty and was shown the conveniences of the place. At last our journey took us into a large room where a furious fire burned, and, strange as it may seem, all the lawyers were hugging the fire thro, too."

Instantly the parties about the stove drew back and Mr. Thrasher moved through the assemblage, sat down, tilted his chair back and sat in blissful content.

IN CELEBRATION OF VICTORY.

Capt. Bill Went Back and Had a Drink with Himself.

During the early sixties there lived in the village of Barrestead, N. H., an ancient character, William Perkins, or "Capt. Bill" as he was commonly known. On his way to and from work, Capt. Bill who was fond of his mug, was obliged to pass a saloon at which he was accustomed to tarry at every trip.

Not Enough Evidence.

Not many years ago a prominent citizen of Haverhill, Mass., was arrested for the unlawful sale of liquor. On being searched a half flask of brandy was found. That being the only evidence, the judge charged the jury. They had been out but five minutes, when they returned and the foreman queried:

"Your honor, how do we know the flask contains brandy? I would like to take the flask into the jury room."

He was given the flask, and soon the jury returned.

"Have you agreed?" the foreman was asked.

"We have," he answered. "We find the defendant not guilty" and exhibiting the now empty flask, he added: "There was not enough evidence to go around." The defendant was discharged.

Leverage Was Too Great.

The late "Charley" Linneman, the contractor, had the use of a sidetrack on the old Boston & Lowell railroad in East Cambridge where he handled all his sand, which came there in carloads, says a writer in the Boston Herald.

One day a very tall man applied to him for a job. (They used short shovels.) "Charley" looked him over, and refused, saying:

"No, you are too far away from your work."

Ants as Germ Carriers.

A German bacteriologist was conducting an experiment in the course of which he made use of typhoid-infected mice. In another cage he had some mice which were in good health. Shortly after the uninfected mice also developed typhoid. Investigation showed that ants were passing from one cage to the other. Some of these ants were examined, and their bodies were found to be covered with the typhoid germs which they were carrying from the sick to the well mice.

Neglected Colds Threatened Life.

[From the Chicago Tribune.]
"Don't trifle with a cold," is good advice for prudent men and women. It may be vital in the case of a child. Proper food, good ventilation, and dry, warm clothing are the proper safeguards against colds. If they are maintained through the changeable weather of autumn, winter and spring, the chances of a surprise from ordinary colds will be slight. But the ordinary cold will become severe if neglected, and a well established ripe cold is to the germs of diphtheria what honey is to the bee. The greatest menace to child life this season of the year is the neglected cold. Whether it is a child or adult, the cold, light or severe, the very best treatment that can be adopted is to give Chamberlain's Cough Remedy. It is safe and sure. The great popularity and immense sale of this preparation has been attained by its remarkable cures of this ailment. A cold never results in pneumonia when it is given. For sale by G. M. Ramsey.

CITY COUNCIL SESSION.

No Action Taken to Abate the Dust Nuisance.

For a short time Monday night the city council met in regular session. Little business was transacted beyond approving minutes of several previous meetings and passing upon the usual batch of bills.

An ordinance was passed so amending the occupation ordinance as to make the license on skating rinks \$10 per month instead of \$10 per week, which is deemed prohibitive.

No steps were taken to restore the sprinkling service, though there was some discussion touching the collection of old sprinkling bills from delinquent business houses. The council is discouraged at the indifference shown heretofore by many subscribers to the fund, and is inclined to the opinion that beneficiaries will pay up more promptly if the sprinkling is managed purely as a private enterprise.

City Marshal—Not Constable.

One of those insidious errors again crept into The News columns. Geo. W. Culver's name appeared in the announcement column as if he wanted to be constable. But he doesn't. It's the city marshalship he is after, and his name is now in the right place.

Candidates will have to be indignant with us. With the passing of the old territorial regime there is such a big lot of offices to fill that it bewilders The News a bit. We are not used to it. But we'll get it all straightened out after we get to vote a time or two.
